

Fitmat SQ 15

High impact square gym tiles.

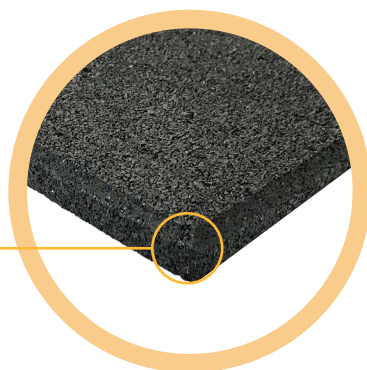

Primelay Fitmat Gym Tiles are designed to offer many of the features given by Commercial/Residential/Home Gym Rubber Flooring with affordable price. It's a perfect flooring option for any high impact workout in commercial, residential, home gym, or flooring for trade shows, wherever a durable yet shock absorbent floor is desired.

Why Choose PrimeFit Fitmat SQ 15 Gym Flooring Products?

- It is a highly versatile and sustainable rubber product that can be altered into different size, thickness, colours.
- Fitmat floor mats are also great at dampening sound while absorbing shock.
- Fitmat Rubber is anti-slip in nature; hence rubber mats prevent slippage during intense activity.
- Rubber gym flooring protects the floor and reduces aerobic impact and noise as well as eliminates vibration.
- Firmat product ranges are available from 10mm thickness to 50mm depends on customer requirements.
